## PROJECTS

**Kapada | Frontend GitHub | Backend GitHub | Admin GitHub**

Developed Kapada, a full-stack e-commerce platform using React (Vite), Tailwind CSS, Node.js, Express, and MongoDB. Implemented authentication, product browsing, cart, search/filtering, and secure payments. Built a responsive user frontend and Admin Dashboard with CRUD operations, routing, and Axios-based API communication. Designed and deployed RESTful APIs with JWT authentication, bcrypt password hashing, image uploads, and real-time notifications.

**Unwindcabins | Frontend GitHub | Backend GitHub |**

Developed UnwindCabins, a full-stack travel site for cabin discovery and bookings. Built the frontend with React and Tailwind, implemented CRUD operations via RESTful APIs, and managed authentication with JWT and global state using Redux Toolkit.
